Carports - Flat or Gable Roof Designs

Key Features

- * Hi-Tensile Steel offers Excellent Strength, Long Life and Hail Impact Resistance. Enjoy Peace of Mind during Storms with a Roof Engineered to Stand the Test of Time.
- * Two Sheet Thicknesses allows Longer Spans with fewer beams providing a Cleaner, Clutter Free, Great Looking Roof.
- * 333mm Coverage allows Greater Flexibility for Light Panel Placement.
- * Satin Paint on Sheet Topsides provides maximum heat reflection with minimal glare whilst Hi-Gloss Paint on Sheet Undersides provides maximum light retention underneath, keeping your awning cooler and brighter all year round.
- * 300mm Wide Domed Polycarbonate Light Panels provide Maximum Strength, Maximum Light and Minimum Maintenance due to the Self Cleaning, Domed Top Surface.
- * Ultra-Flat Profile Underside makes Cleaning Simple and helps to Keep Your New Roof Looking Great.
- * Australian Made Steel for Long Life and Assured Quality.
- * 15 Year Structural Guarantee provides Long Term Peace of Mind backed by a Long Standing Australian Company.
