# Roof Sheets

## Areas Of Suitability

Awnings/Pergolas - Flat or Skillion Roof Designs

Carports - Flat or Gable Roof Designs

## Key Features

- \* Hi-Tensile Steel offers Excellent Strength, Long Life and Hail Impact Resistance. Enjoy Peace of Mind during Storms with a Roof Engineered to Stand the Test of Time.
- \* Versatile Roof Profile allows Longer Spans with Fewer Beams and Posts required. Ideal in Carport Situations.
- \* 650mm Coverage with non-syphoning lap joining minimises the risk of moisture transfer between sheets and therefore leakage.
- \* Satin Finish Paint on Sheet Top provides maximum heat reflection from the top surface and & Hi-Gloss Undersides maintain maximum light retention underneath, keeping your awning cooler and brighter all year round.
- \* Available in a Wide Range Of Colorbond Colours, PRODEK can be supplied in a Colour to Compliment Your Home.
- \* With a minimum Roof Pitch Requirement of only 1 Degree, PRODEK is the ideal choice for Flat Roof Carports and Skillion Roof Installations.
- \* Australian Made Steel for Long Life and Assured Quality.
- \* 10 Year Structural Guarantee provides Long Term Peace of Mind backed by a Long Standing Australian Company.
